For Fast, Removable Media Drive Connections

Running out of disk space? With SlimSCSI 1450 you don't need to replace your notebook or worry about spending the time and expense to upgrade your hard disk drive. You can enjoy unlimited storage and protect your data from system damage or loss by backing up to the most popular magneto-optical or other removable media drives, including Iomega Zip, Syquest EZ-320 and SyJet.

Improved Performance

Thanks to SlimSCSI, your peripherals will work up to 6 times faster than they would with a parallel connection. Imagine copying 100MB of data in just 75 seconds, instead of eight minutes.

Plug-and-Play Convenience

With full Plug-and-Play support under Windows 95, SlimSCSI 1450 lets you attach or detach removable media drives in seconds, without having to reboot your systems. Just slide SlimSCSI 1450 into your PC Card slot, connect it to your removable media drive and you're ready to go!

Device Support

- Iomega Zip drives
- SyQuest EZ 135, EZ 230, EZ Flyer, SyJet, etc.
- Most brands of magneto-optical (MO) devices
